PRESENTS FROM HER DADDY OVERSEAS.

This photograph shows little Miss Juanita Douglas and her mamma, Mrs. Theron Douglas, with some of the German-made toys consisting of two helmets, a gas mask, two large shrapnel shells and a quantity of silk handkerchiefs with the Luxemburg monogram.

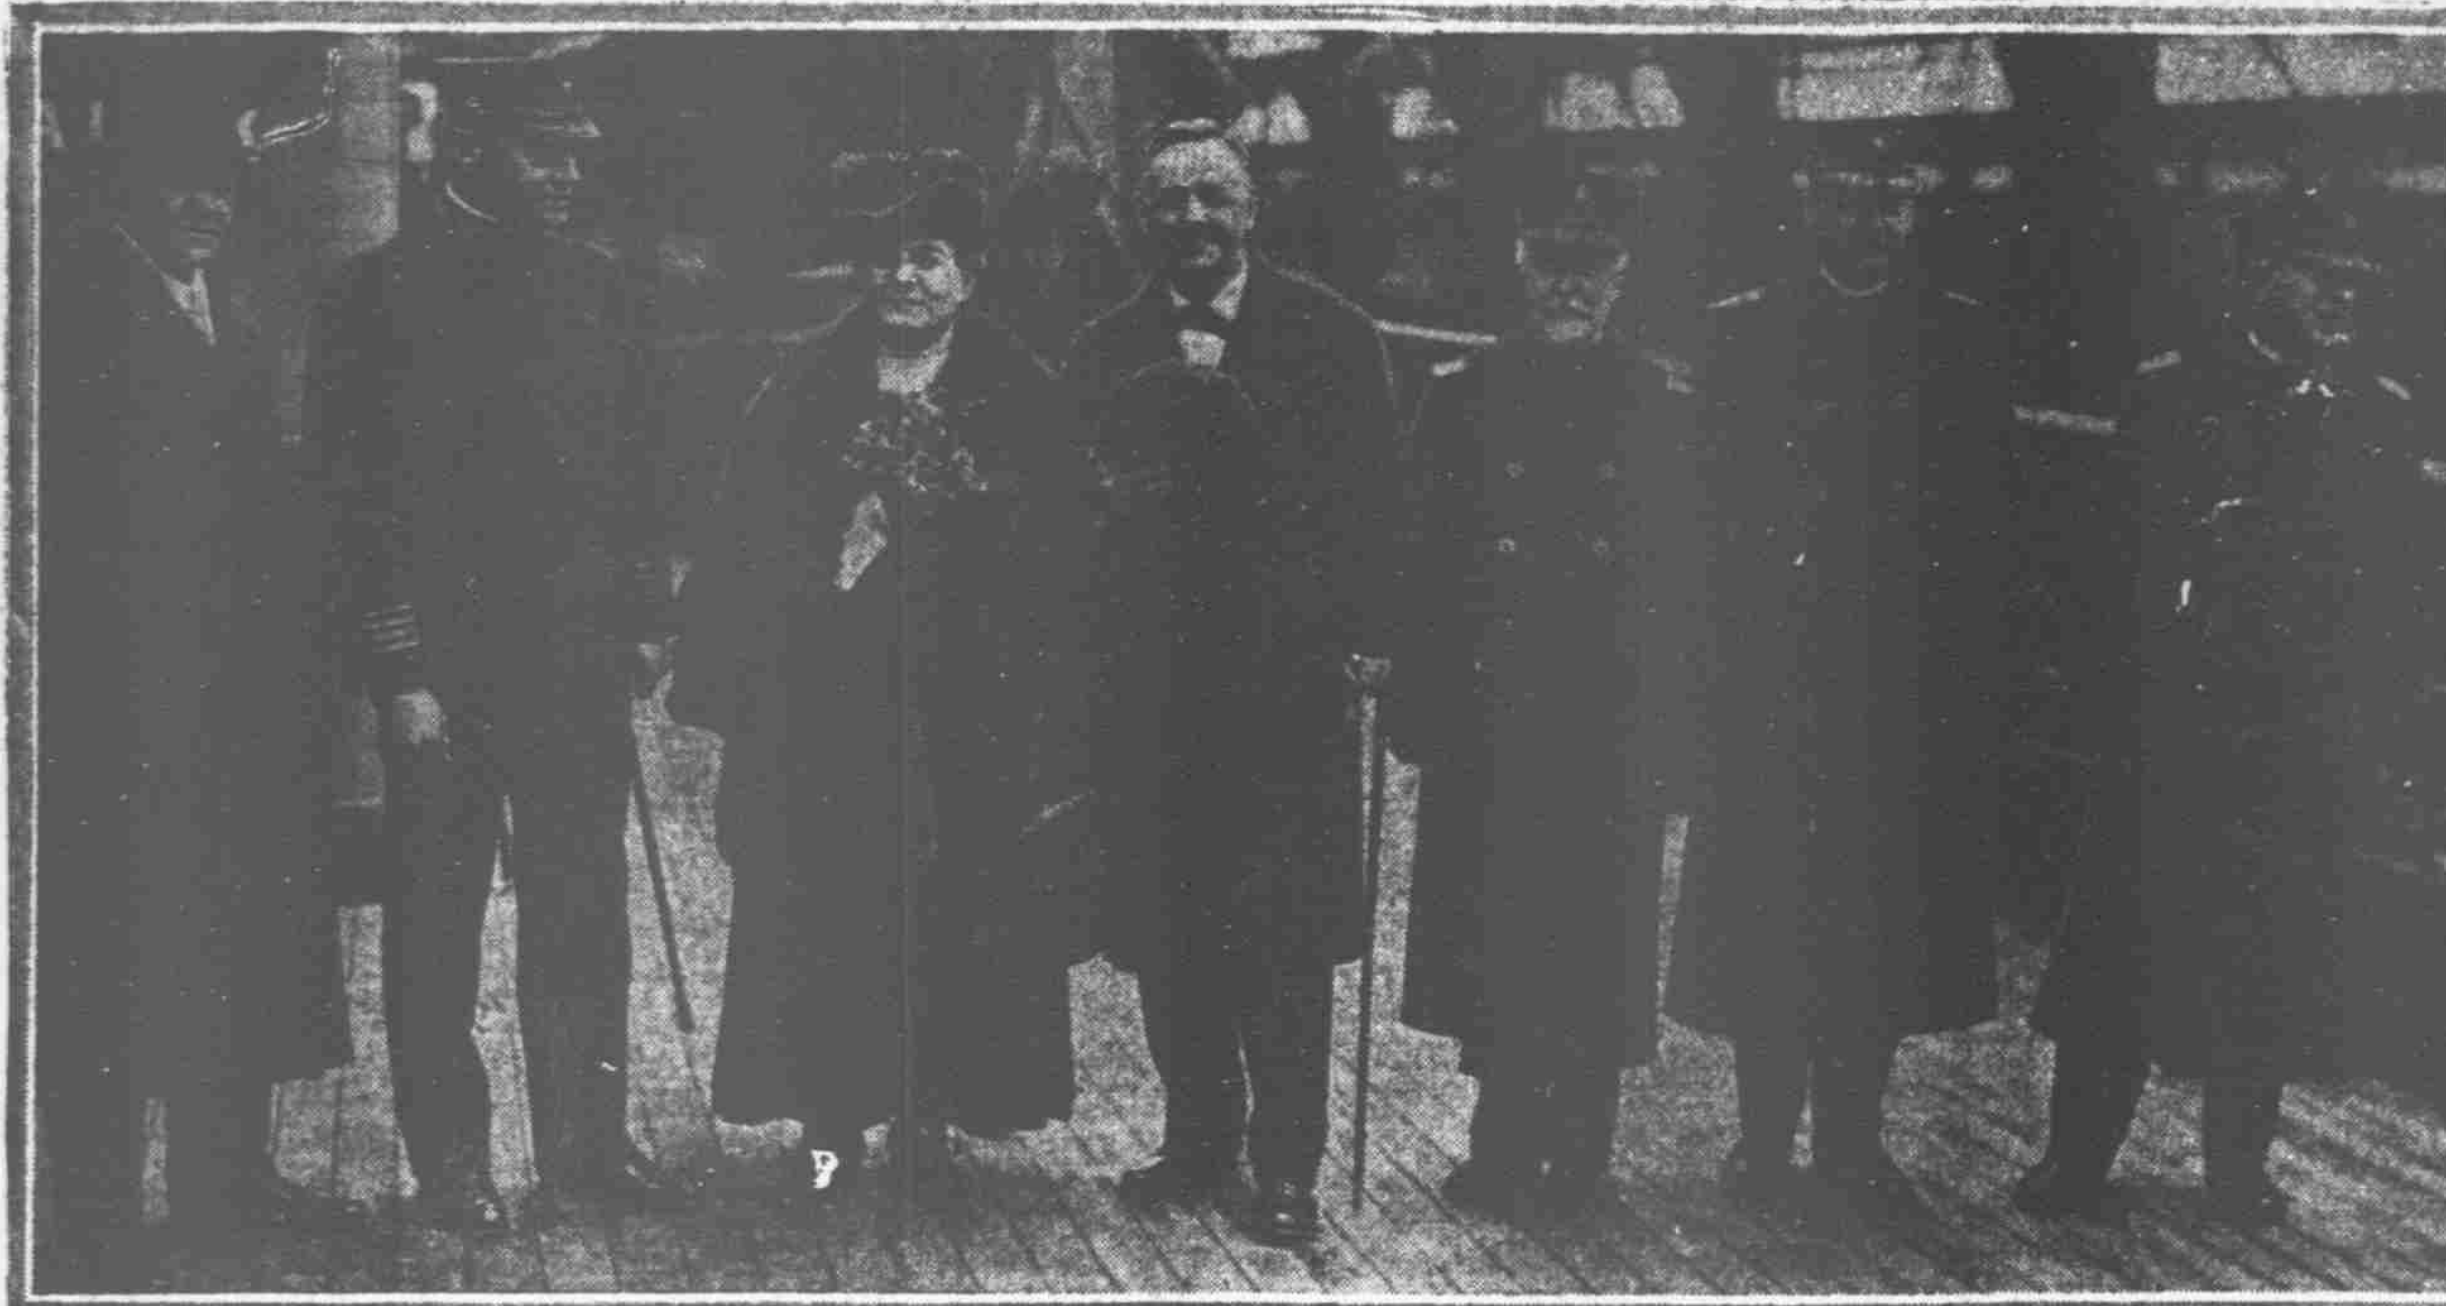

Also there is an iron cross. These trinkets were sent to little Juanita by her daddy whom she has not seen. Papa Douglas will have to be content with this photograph of his baby until next June, as he is with the army of occupation in Germany.

JUST BEFORE THE CURTAIN DROPPED.

Well, he's in again. Also the Clown Prince, as Tom Powere would say. This photo, taken at Sedan last September, is the last there is any record of, of the former grand high mogul of the Germany that was. Having no room on his coat for any more cast iron

crosses, Bill is here shown wishing one on to one of the defenseless soldiers. Good joke, too, Bill thinks. His handsome offspring is looking enviously at the medal.

NAVAL CHIEF OFF TO FRANCE TO STUDY AERIAL CONSTRUCTION.

Secretary of the Navy Daniels sailed for France last week on the S. S. Leviathan to make a study of the seaplane construction work now being carried on in that and other European nations. The photo shows, from left to right, John B. May, secretary

to Mr. Daniels; Capt. W. W. Phelps, of the Leviathan; Mrs. Daniels and Secretary Daniels, and Admirals R. S. Griffin, D. W. Taylor and Ralph Earle, who will act as the Secretary's official party.

FIRST OF HER SEX IN NEW YORK.

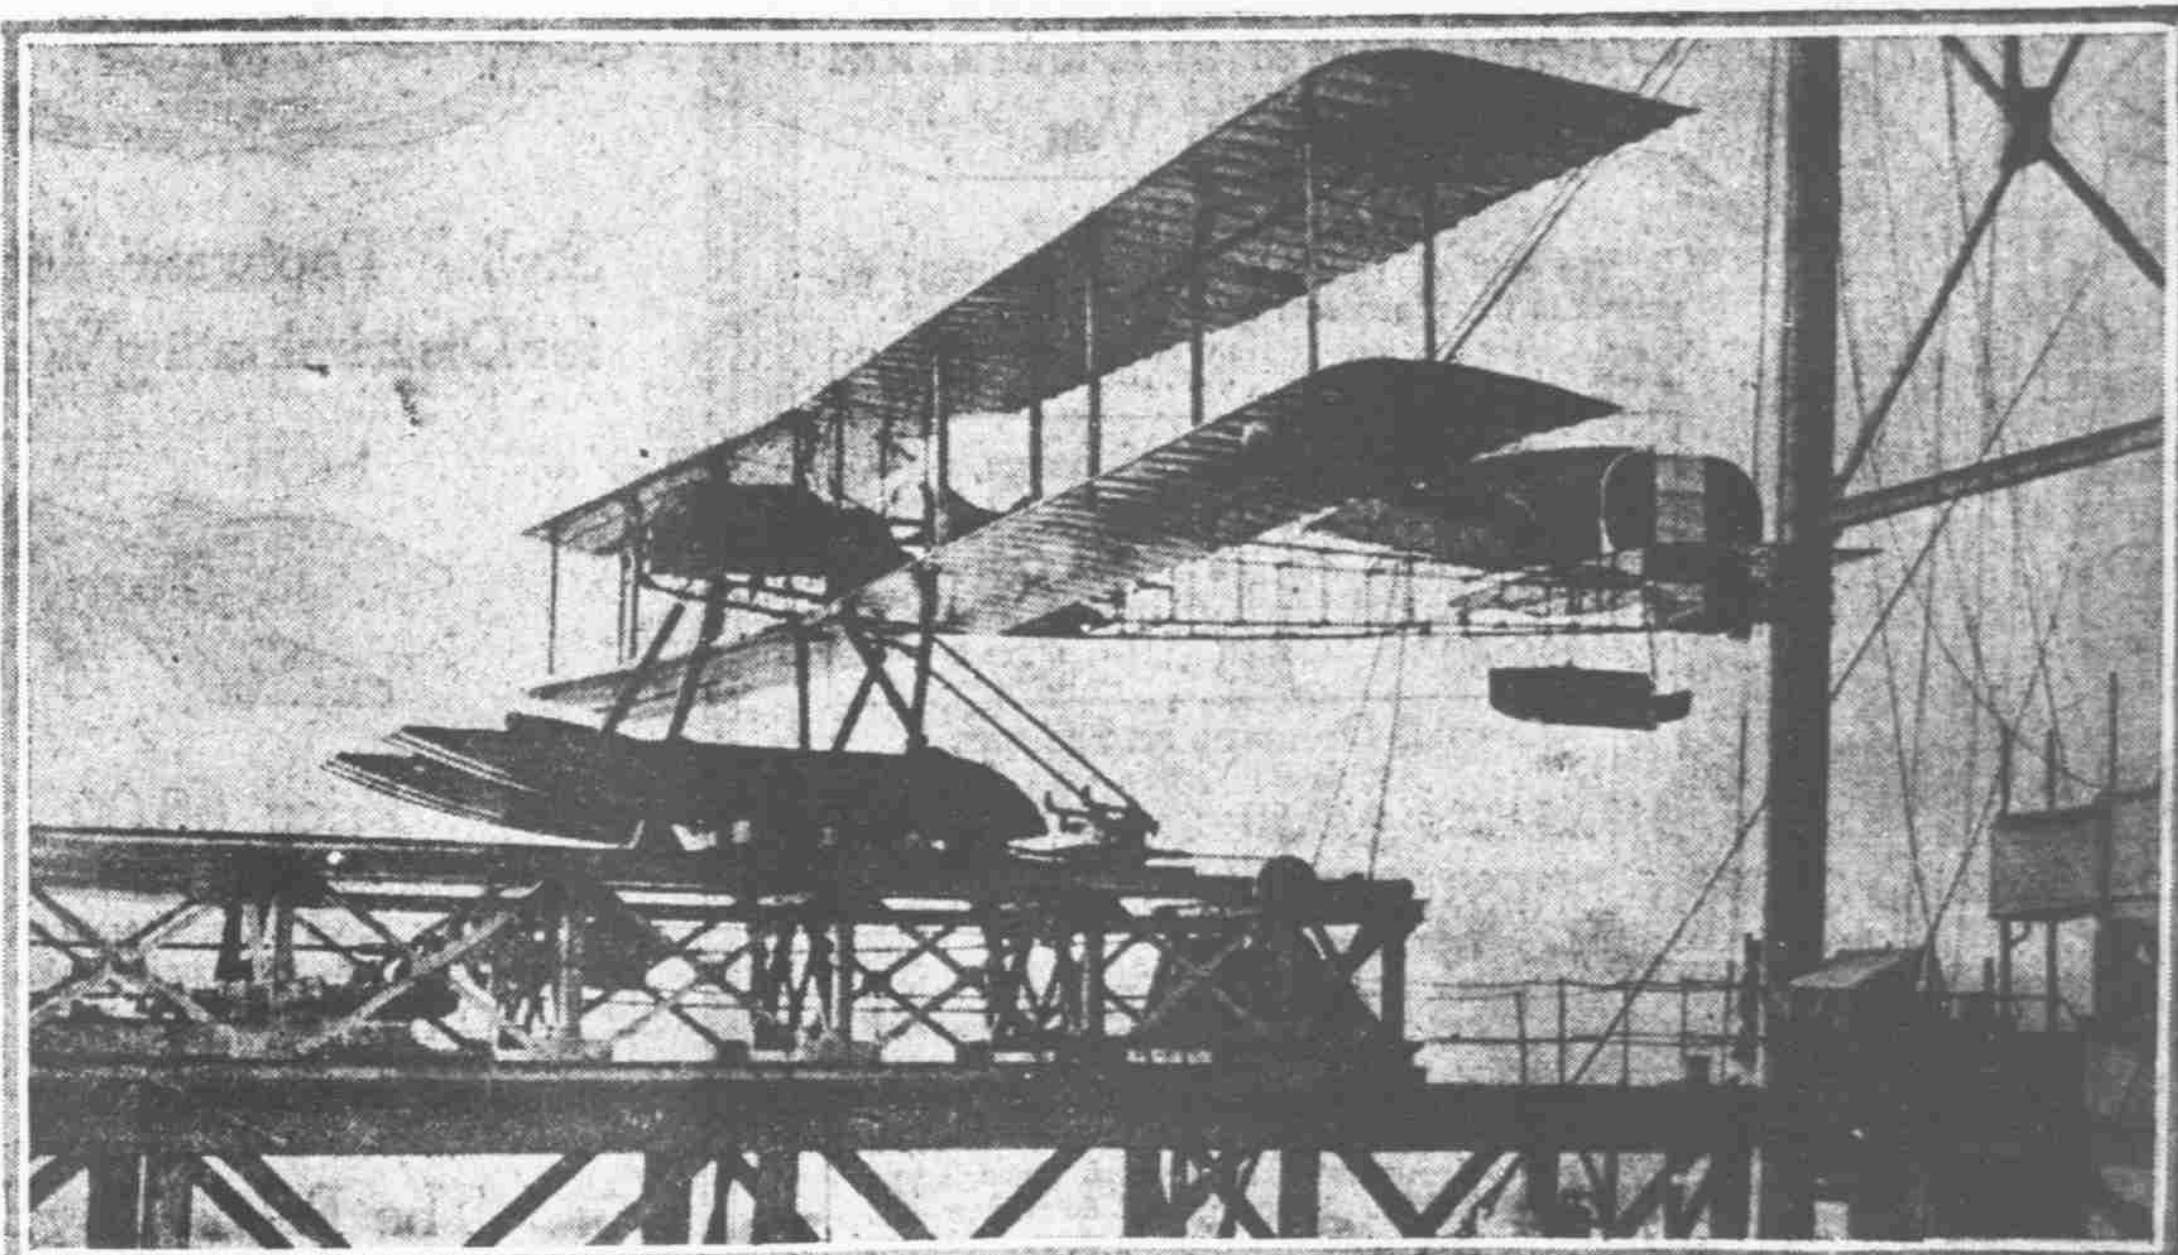

The trim, silk-clad ankles of Mrs. Betty Inch, defendant in an extortion case, are responsible for the first appointment of a woman deputy sheriff in New York county. During her trial Mrs. Inch was detained in the Tombs. Sheriff David H. Knott swore in Miss Belle Norton as a deputy to take care of Mrs. Inch and any future female prisoners.

YOU'D NEVER KNOW THEY WERE SOLDIERS.

They don't look much like British Tommies, but that is what they are—or rather were, until the Germans got them. They belonged to an Essex regiment until they were captured on March 28, last, at St. Quentin. They were held in German prison camps until

November 16, 1918, when they, with thousands of others, were released and sent to France. Worn-out German uniforms replaced their trim British outfits.

SEAPLANE LAUNCHED BY A CATAPULT.

Launching seaplanes by a compressed air catapult contrivance is the latest novelty in marine aviation. It enables a plane to take off from the deck of the "mother ship" without the long runway

which otherwise would be necessary in order to give it sufficient speed to take the air.
